**Tip or Complaint:**

Hickman's manure room fans are constantly blowing emissions out into our community. The stench is horrible and the dander dust is thick. I am sure ammonia is in the "mix". I can not stay outside of my home long because it is unbearable and it is hard for me to breath. I have been experiencing headaches, joint pains, abdominal pains, sore throats, rashes and the list goes on. All of which seem to come and go and I personally believe and blame Hickman's emissions for all of this suffering. I feel fatigued a lot of the time and I seem to feel better when I leave my home and get away from this stinking place. Life was good before these 5 million birds became my neighbors. This is America, not a third world country, where are my rights when it comes to enjoying my own property and staying healthy? I took some photos earlier in the day showing the bluish white haze, coming from these barns, trailing off into the horizon. Their emissions are slowly killing us and you know it.
